

## **Vodafone Idea is going the extra mile to keep customers in Haryana connected during Covid pandemic**

**Karnal, March 27, 2020:** During the current lockdown due to Corona pandemic, connectivity is the most important service for people to connect with their loved ones and work from home. Vodafone Idea's engineers have been working tirelessly over the past weeks to support customers in Haryana stay safe at home by ensuring Vodafone Idea's 4G+ network availability.

A comprehensive pandemic response plan with requisite risk mitigation protocols has been activated while ensuring continuity of mission critical processes for keeping networks working as telecom is an essential service. VIL has been continuously monitoring traffic patterns and is confident of handling the growing demand of voice and data services during the lockdown period.

Some on ground examples on Network continuity efforts in Haryana:

1. Network issue faced by Urban local bodies health, medical education & research Minister Haryana Govt. at his Ambala Residence. Field engineer took necessary approvals to visit the location, address the problem and ensure restoration
2. When a complaint was received from SP Bhiwani about connectivity issues at her guest house, our Network engineer immediately travelled through deserted roads, guided by Regional Manager on safety precautions, assessing risks to physically optimize the site at the location, as connectivity at Police Station was critical.
3. Despite the Sunday's Janta curfew in Rewari, and this week in Jind, our teams promptly restored the services in different areas of these towns, despite stringent restrictions on movement by the Police.
4. Network Engineers have been the field heroes, some of them travelling upto 30 kms each day from base to site, auditing and protecting sites over the past week.

At a national level, Vodafone Idea has set up virtual war rooms where key team members are participating through Concalls and VCs. Senior team members from operations / circles / SNOC and partners are continuously on call with field to ensure uptime and operational continuity.

Business Continuity Plans are being diligently reviewed across all operations, through flagship Super NOC, located in Pune and Hyderabad, the nerve center of all 22 circles with centralized monitoring and control of Network, geo-redundancy.

12000+ ma-MIMOs (by far the largest deployment in the country) across key markets are substantially helping in managing the national traffic spike. Vodafone Idea is also deploying capacities across using all means including addition of COW sites wherever appropriate.

The Govt realizes the critical role of telecom services during this crisis and has been taking necessary steps to enable smooth functioning of telecom operations.

At VIL, the health and safety of employees remains a top priority. While majority of the team members have been enabled to work from home, certain critical facilities have been operating with scant staff to enable uninterrupted services to customers 24X7, as per Govt orders of operating essential services.

The Company has organised temporary stay arrangement at data centre locations, made food and groceries available at critical locations and been providing vehicle on duty to facilitate movement of technical staff to sites.

VIL Network engineers are working in the field with utmost care by following the social distancing protocols.

Other Examples:

- Daily briefings on Safety, Social distancing to all field and non-field staff
- Drive test teams, FRT, Patrollers provided with masks, gloves and sanitizers
- Daily stock taking of well-being of people
- NW team connected 24x7 over phone/emails/whatsapps/VCS
- Vehicles are tagged with “Emergency Telecom Services” stickers
- Each field engineer carries 3 documents – DOT letter, Personal ID and Employee ID
